

An illustration of a green power line tower with a wire sagging down towards a car. The wire is shown as a dark grey line that curves from the tower down to a car. The car is a simple black outline. A yellow and red lightning bolt symbol is positioned where the wire meets the car, indicating a power surge or contact. The background is light blue with stylized clouds. A large green rectangular box is overlaid on the top half of the image, containing the main title in white text.

DOWNED POWER LINE & VEHICLE SAFETY

Knowing what to do can save your life.

IN CRASHES INVOLVING POWER LINES:

1 Do **NOT** leave the vehicle

2  **Call 911** and wait for the power company to arrive

IF YOU NOTICE SMOKE OR FIRE :

3 **Jump out with both feet together** and without touching the car and ground at the same time.

4 Shuffle or bunny hop as far away as you can - **both feet MUST stay together.**
